Aldrin, effect on ATPase activity in turtle tissues 572
—— epoxidation to dieldrin in lobsters 577
—— levels in arctic birds 326
Analysis; determination of NTA by atomic adsorption 57
—— GLC of Ekalux in crops 121
—— GLC-MS of PCB's in quail brain 333
—— GLC-MS of PCT's 309
—— interference of S compounds in, of PCB's 136
—— of aldrin in presence of sulfur 231
—— of DDT residues by oxidation with tetrabutyl ammonium permanganate 451
—— of PCB's in bird tissues 113
—— of sodium fluoroacetate 177
Animals, mercury in tissues and lice of seals 281
Apparatus for even illumination in algal tests 265
Asbestos fibrils in gin 267
Beef cattle waste, chemistry and microbiology of 26
Benomyl, instability of under various conditions 273
Birds, analysis of PCB's in 113
—— DDT and PTH in eggshell thinning 139
—— fate of mirex in Japanese quail 129
—— effect of DDT on bobwhite adrenals 407
—— effect of dieldrin and PCB's on quail eggs 70
—— effect of dietary Hg and Pb on mallard eggshells 5
—— effects of methylmercury on mallard reproduction 386
—— effects of 15 pollutants on eggshell thickness 98
—— effects of nonpersistent pesticides on rats and quail 496
—— GLC-MS of PCB's in quail brain 333
—— interaction of DDT and histomoniasis in 474
—— lead poisoning in 105
—— mirex in roosters, cumulation and disappearance 217
—— organochlorine residues in fat of mutton birds 517
—— response of mallards to DDT 49
—— selenium protection of quail against methyl mercury 152
—— trichlorofon and carbaryl in songbirds 78
Blood-glucose, indicator of environmental stress in fish 20
Cadmium, toxicity in fish 146
—— uptake and tissue levels in catfish 244
Carbaryl, dissipation from orchard soil 224
—— in songbirds 78
Carcinogens, nitrogen-nitrosamine link 18
Chlordane, persistence as a termiticide 64
Chlorphenamidine, effects on HeLa cells 184
2,4-D and 2,4,5-T mixture, effect on hatching and performance 33, 339
2,4-D and Picloram mixture, effect on hatching and performance 33, 339, 511
DDE, in human blood 202
—— interaction with dieldrin in quail 297
—— levels in arctic birds 326
DDT, acute toxicity to mice 359
—— and ATPase activity in trout 425
—— effects on bobwhite adrenals 407
—— in reef dwelling fish 189
—— interaction with histomoniasis in bobwhite 474
—— oxidation with tetrabutyl ammonium permanganate 451
—— & PTH in eggshell thinning 139
—— response of mallards of different ages 49
DDVP, alterations in rat testis tissue by 429
Dieldrin, effect on ATPase activity in turtle tissues 572
—— effect on production of quail eggs 70
—— interaction with DDE in quail 297
—— persistence as a termiticide 64
Diethylstilbestrol, effect on feedlot bacteria 554
EKALUX, GLC determination in crops 121
Ethylene thiourea, excretion by rat and guinea pig 174
Fenitrothion, dermal absorption in rat 285
Fish, blood-glucose and environmental stress in 20
—— cadmium toxicity in 146
—— cadmium uptake and tissue levels in catfish 244
—— DDT and ATPase in trout 425
—— DDT, DDE, & PCB's in reef dwelling 189
—— mirex effect on succinic dehydrogenase of 364
—— mirex in commercial catfish 258
—— organochlorine residues in eggs of 503
—— organophosphates and acetylcholinesterases of 483
—— short term fate of dieldrin in trout 563
—— toxicity of parathion and methyl parathion to 315
—— toxicity of two oil spill reagents to 159

Gamma radiation, on solutions of phenol 461
Guthion, half life in aqueous solution 532
Heavy metals, developmental inhibition of hard clam 92
Hexachlorobenzene, residues in fish 393
Hexachlorobiphenyl, synthesis of a major PCB component 39
Insecticides, alteration of microsomal metabolism by anticholinesterase 538
—— effects on mitochondrial membranes 169
Lead, effect on mallard eggshell thickness 5
—— poisoning in a bird of prey 105
Mammals, excretion of ethylene thiourea by 174
Matacil, degradation by the ascorbic acid oxidation system 193
—— photochemistry of 250
Mercury, effect on mallard eggshell thickness 5
—— in bear 1
—— in eastern oyster 275
—— in tissues and lice of fur seals 281
—— uptake from soil by wheat and barley 551
Methoxychlor, loss from leaves shed into water 500
Methyl mercury, biotransformation in guinea pig 85
—— effects on mallard reproduction 386
—— protection of quail from intoxication by the use of selenium 152
—— uptake by fungi 456
Microsomal enzymes, induction by PCB's 206
Mirex, biodegradation by sewage sludge organisms 415
—— effect on succinic dehydrogenase in fish 364
—— fate in Japanese quail 129
—— in commercial catfish 258
—— in milk from southeastern United States 238
—— in tissues of roosters 217
Organochlorine residues in fat of mutton birds 517
—— in Iowa mink 379
Organophosphates, effects on snails 417
—— short term effects on fish cholinesterases 483
Paraoxon, renal effects in the rat of 343
Parathion and methyl parathion, toxicity to mosquitofish 315
PCB's accumulation in grass shrimp 303
—— analysis of in bird tissues 113
—— bacterial degradation products of 291
—— effects on the production of quail eggs 70
—— embryotoxic and teratogenic effects on hens eggs 489
PCB's, high volume atmospheric collection of 442
—— in green turtle eggs 399
—— in human blood 202
—— in humans 213
—— in reef dwelling fish 189
—— in wastewater treatment system 12
—— induction of microsomal enzymes by 206
—— interference by S compounds in the analysis of 136
—— levels in arctic birds 326
—— synthesis of a major component of 39
—— uptake by carrots from soil 523
PCN, analysis by GLC and UV irradiation 438
PCNB, at different soil depths 241
—— residues in greenhouse soil 567
PCT's, GLC and MS analysis of 309
—— in human fat 157
Pesticide leaching, effect of sodium chloride on soil columns 348
Pesticide residues, dissipation from orchard soil 224
—— in bear 1
—— in 1972 cigars 312
Phthalates, retention and excretion by the rat 371
Photochemistry of matacil 250
Picloram, extraction from sandy loam soil 233
—— in lysimeter water 109
Pyrolytic evaporation from PVC meat wrapping film 45
Randox in dairy cows 529
Reentry, dislodgable insecticide residues on cotton 434
Selenium, protection of methyl mercury poisoned quail by 152
Soil, dissipation rate of landrin in 352
—— NaCl and leaching of pesticides from columns 348
—— uptake of mercury by wheat and barley from 551
—— uptake of PCB's by carrots 523
Solanine, Concentration; influences on the 165
Toxicity of carbon:hexane:acetone extract from drinking water 545
Toxins, effect on Tetrahymena 321
Trichlorfon, in songbirds 78
Water quality, use of dilution water effect as a measure of 256
